We recruit passionate professionals from across the world over all fields who support our goal of excellent research. Located within a beautiful campus on the outskirts of Vienna, we offer multiple opportunities for personal growth in a stable working environment. [Get an insight!](#)

Your responsibilities

We're looking for a System Administrator to join our IT infrastructure team. In this position you will be maintaining our existing server infrastructure and implement new systems and services.

- Participate in design, deployment and maintenance of IT systems and services – especially for Windows servers and VMware virtualization
- Provide 2nd-level and 3rd-level IT support for our users
- Respond to software and hardware outages
- Implement and maintain scripts for automated systems management
- Document configuration of servers, services and applications; provide end-user documentation

Your profile

- Education and/or first experience as a System Administrator
- Profound knowledge of Windows Servers (incl. AD & Exchange) and at least first experiences with Linux servers
- Understanding basic principles of networking: TCP/IP, LAN/WAN, DHCP, DNS, Routing and Switching
- Knowledge of scripting languages (bash, Perl, Python, PowerShell)
- Some experience with common virtualization technologies
- Experience working with and within common IT service management and/or IT security frameworks
- Eagerness to learn new technologies
- Very good command of the English language
