

## Internship Engineering - Software development

Klagenfurt, Vienna, Berlin

**Bitmovin**, a YCombinator company, is a fast growing, privately owned technology leader, located in San Francisco, CA and Klagenfurt, Austria. The company was founded by the co-creators of international media standards like MPEG-DASH, that is used today by Netflix, Youtube, and others. Bitmovin is the technology leader in online video technologies such as cloud-based encoding, adaptive streaming players, 360°/VR streaming and performance analytics. Bitmovin is backed by top investors such as Atomico as well as industry leaders like the former VP Engineering of Netflix, former CTO of Cisco, founder of Unity3D, and many others. Bitmovin's customers include the top media and technology companies worldwide, including Ooyala, RTL, Pro7Sat1, Bouygues Telecom, Cloudflare, Technicolor, Televisa, Zattoo and many others.

Working at Bitmovin is fast-paced, fun and challenging with colleagues and customers worldwide.

We want to give students from technical schools like HTL valuable work experience and also support them in writing their diplomas during an internship. If you are interested in an internship at Bitmovin, please upload your **CV, school certificate (Zeugnis), and a motivation letter** with additional information about your expectation about an internship with Bitmovin. Please bear in mind that for internships it makes sense to **stay at least for 2 months** at Bitmovin in order to ensure a good learning experience for you.
